Electronic

If you are wanting to spin large amounts of yarn, perhaps for a small cottage industry, or if you have trouble treadling, the electronic is your best choice.

It has a silent motor and a large range of flyer speeds from 0-1500RPM, so it is suitable for all skill levels. Hand controls allow you to easily turn the motor off and on, change speed and direction. You also have the option of a cigarette lighter adaptor which allow you to take the electronic spinner away with you on holiday, and use it in the car.

It comes to you assembled and lacquered, and is made from New Zealand Silver Beech. 3 Bobbins and a Lazy Kate are included.

WHEEL DIAMETER: 61cm (24")
BOBBIN CAPACITY: 225gm (8oz)
MOTOR: 12 volt DC 6 amp
WEIGHT: 7kg (15lb)

Lacquered – ESP2 : 989\$

12V adapter cord for ESP2 (fits into a cigarette lighter)
ESP2CC : 17,50\$

Spinning wheels and accessories

ASHFORD Traveller Single Drive

The Traveller with scotch tension is a great little wheel that suits most spinners. Like the Traditional you can buy "add on" kits that allow you to adapt the wheel to your specific spinning needs.

If you collect the complete set of kits, you will have a wheel that will spin almost any type of yarn you can imagine.

With the Traveller you also have the bonus of portability. The wheel has been designed to fit snugly into the boot of your car, so it's easy to take it with you to workshops, and spin-ins. The wheel is made from solid New Zealand Silver Beech and comes complete with 4 bobbins, threading hook, learn to spin booklet, and built in lazy kate.

The Traveller Spinning Wheel now comes with Double Treadle as standard.

WHEEL DIAMETER: 46cm (18")

ORIFICE: 1cm (3/8")

BOBBIN CAPACITY: 100gm (3-4oz)

RATIOS: 5.5, 10 & 14:1

WEIGHT: 7kg (15lb)

ASHFORD
Joy Single Treadle

The Joy is the solution to portable spinning. You can take this wheel with you wherever you go! The revolutionary design is ultra light weight and folds up to fit inside a carry bag. We have heard stories of spinners taking this wheel all over the world, on a boat, on a plane, a train or in a caravan!

It has scotch tension and four flyer ratios for fine to chunky novelty yarns. The bobbins fit into the frame and the board folds flat.

The Joy comes to you assembled, lacquered and ready to go. Made from strong furniture grade plywood.

"And why the name? Named after Joy Ashford who with her husband Walter brought spinning wheels to the world... and because it is such a Joy to use!"

WHEEL DIAMETER: 40cm (15.75")

ORIFICE: 1cm (3/8 ")

BOBBIN CAPACITY: 100gm (3-4oz)

RATIOS: 6, 8, 11 & 14:1

Electronic

Production Machine

If you are wanting to spin large amounts of yarn, perhaps for a small cottage industry, or if you have trouble treading, the electronic is your best choice.

Spin fine and textured yarns. Very easy to use and very portable. Spin at home or in your car, caravan, RV or boat. Smooth quiet direct drive 12V motor. Includes a sliding hook flyer, 3 large jumbo bobbins and lazy kate with yarn guide. Power pack, cord and interchangeable outlet. Assembled & lacquered.

Quiet motor drives flyer. Change speed to spin thin to thick yarns. So portable as very light and compact.

ORIFICE 1.5cm (5/8")
MOTOR 12volt DC 1.25amp
SPEED 0-1500rpm
BOBBIN CAPACITY 225g (8oz)
POWER SUPPLY 110 or 220 volts
WEIGHT 2.8kg (6lbs)

It comes to you assembled and lacquered, and is made from New Zealand Silver Beech. 3 Bobbins and a Lazy Kate are included.

S10

Natural - 980\$

The original Louët with minor modifications to keep it on the leading edge of spinning technology. The S10's careful design has proven to be an ideal wheel for beginners and experts alike. Sturdy construction makes it a suitable wheel for production spinners. The single hole in the wheel leads to a balanced flywheel, which ensures that the wheel always stops in the place that you stop. Constructed with solid lacquered wood. Accessories available for the S10 include: skeinwinder, distaff, a four bobbin lazy kate, high speed bobbin, fatcore bobbin, flyers, and various spareparts.

625\$

Spinning wheels and accessories

S10 DT

The demand for double treadle wheels was so strong we adapted our original classic with a true double treadle system similar to the S51DT system. Clear lacquered.

Wheels are made of laminated hardwood with a "birch" exterior finish.

730\$

S15

This unfinished solid wheel allows you to create your own unique finish. It has all of the standard features of a Louët wheel with a low price.

Wheels are made of laminated hardwood with a "birch" exterior finish.

The orifice on the standard wheel is sufficiently large (12.5 mm or 1/2") as are the bobbins, (180-250 gr capacity), to allow you to create novelty yarns. The flexible belts are made of polyurethane and never have to be adjusted.

Accessories available for the S15 include: skeinwinder, distaff, a four bobbin lazy kate, high speed bobbin, fatcore bobbin, flyers, and various spareparts.

499\$

S17

Introducing the everyday wheel. This single treadle wheel is designed with the budget conscious spinner in mind! Smooth ball bearing operation like all our wheels, easy treadling, and a well balanced wheel that won't disappoint! Comes as a kit with assembly instructions. A great wheel at a really great price!

Wheels are made of laminated hardwood with a "birch" exterior finish.

Spinning wheels and accessories

LOUET
Julia

The best way to describe this wheel is a Victoria version of the S51DT. Bobbins, flyer and the Scotch tension are the same as on the Victoria.

There are four ratios, which are: 1:6, 1:8.5, 1:12.5, 1:19. An optional high speed set, which is also the same set as the Victoria uses, provides an extra 1:27 ratio and make it easier to treadle the 1:19 on the Julia.

A removable insert provides two orifice sizes (12mm and 8mm). All rotating parts run on ball bearings for smooth operation, while the unit itself is constructed out of beech and birch plywood, smoothly lacquered.

The Julia comes standard with a stand-alone 3 bobbin Lazy Kate comes with an adjustable brake.

Wheels are made of laminated hardwood with a "birch" exterior finish.

The base with treadles can be easily disassembled from the upright with the main wheel (unit does not fold) for easy transportation.

865\$

LOUET
Victoria

The Victoria is not like your everyday spinning wheel. It's light, portable and incredibly easy to use. The Victoria has been designed with precision and care, from advice received by today's hand spinner.

Features & Benefits

Weighing only 6lbs makes it light enough to go anywhere

Ratios of 1:6, 1:8.5 and 1:13
Optional High Speed Set provides an extra 1:19 ratio.

Can easily fold in half, making it very portable

Available in Classic Oak or Contemporary Beech

Scotch Tension Brake System gives you an unlimited range of tension

Well made with care and precision

Beech: 875\$

Oak: 899\$

LOUET

Top Whirl Drop Spindle

Our popular top whirl drop spindle, great for beginners or for spinners on the go. Drop spindles can be taken anywhere, in your hand bag – making you a mobile spinner. The whirl features decorative sheep heads. This drop spindle weighs 78.8 gr or 2.76 oz.

15.75\$

Bottom Whirl Drop Spindle

Top or bottom whirl refers to the location of the whirl (large wooden disc), relative to the hook which your yarn will run through. Drop spindles can be taken anywhere, in your hand bag – making you a mobile spinner. The whirl features decorative sheep heads. This drop spindle weighs 77.1 gr or 2.7 oz.

17.95\$

Octo Drop Spindle

The octo drop spindle is another top whirl drop spindle, great for beginners or for spinners on the go. This model is smaller and even more compact and the whirl is octagonal shaped. It is featured in our Drop Spindle Kit. Drop spindles can be taken anywhere, in your hand bag – making you a mobile spinner. This drop spindle weighs 41 gr or 1.43 oz.

11.50\$

Octo Drop Spindle

Our niddy noddy can be easily taken apart and adjusted to measure two lengths of skeins: 90 (36") and 180cm (72").
